### Notes:

Station ETA is a rough estimate of when the aircraft arrived to the fire based on estimated flight times from point of departure.

\* Los Angeles City helicopter Fire 5 no information as of yet but their flight time and gallons dropped should be close to that of Copter 18 on 8/26 – 2.9 hours flight time and 12,600 gallons dropped.

\*\* Los Angeles City helicopter 743 no information as of yet but their flight time and gallons dropped should be close to that of Helicopter 732 on 8/27 7.4 hours flight time and 94,000 gallons dropped

\*\*\* Los Angeles County Helitanker 732 originally dispatched at 9:18am but mechanical problems delayed departure until 10:17am.
